**Watch the time**

**At midnight tonight**  
**Palos Verdes Notes increase**  
**from 105 to 107**

For a few hours more you have opportunity to save \$2.00 for every One Hundred Dollar Palos Verdes Note subscribed.

Today and until midnight tonight \$15 down will reserve a \$100 Note. Monday morning it will take \$17 to secure exactly the same Note.

Can you afford to let this saving slip through your fingers by failure to act at once?

Do you realize that the difference between the money you save by investing in a \$1000 worth of Palos Verdes Notes before midnight, instead of on next Monday morning, is almost enough to make first payments on two additional Notes—or a total of \$1200 instead of \$1000?

**YOU CAN ACTUALLY SUBSCRIBE TO \$1133.33 WORTH OF NOTES NOW FOR THE COST OF \$1000 WORTH NEXT WEEK.**

If you are out of town, mail your subscription. Or, to be safer, WIRE A RESERVATION. Letters showing postmarks earlier than 12 p.m. tonight, or telegrams filed before that hour, will be accepted for subscriptions at 105.

**OUR GENERAL SALES OFFICE, 929 S. BROADWAY, WILL BE OPEN UNTIL MIDNIGHT TONIGHT.**

This is your last opportunity to buy Palos Verdes Notes at the present low price. If you can't call in person today, telephone 822-481 and our representative will call. A few hours' delay in making your subscription means extra cost for you Monday morning.

## POLITICAL JOB SALE CHARGED

Home Shredded by Speech of  
Ousted Virginian

Asserts He Has Proof of  
Patronage Graft

Republican Member Named  
as Chief Dispenser

WASHINGTON, Dec. 15.—In a parting shot at his Republican foes just before they ousted him late today from the House of Representatives on the ground of election irregularities, Representative Thomas W. Harrison, Democrat of the seventh Virginia district, charged that the life of the Republican party in his State was based on patronage, and then proceeded to read letters which he declared proved incontrovertibly that patronage had been sold there.

At the time the speech was made in the Chamber, Mr. Harrison declared that Representative C. Bacon, Republican, national committee chairman, was the dispenser of all patronage. Then holding aloft a handful of letters and cancelled checks, Mr. Harrison said: "The people of the country do not altogether understand Virginia Republican politics. It is a pure matter of patronage and a question of how they can feed at the public trough. Why, I have been hearing all over the district of matters about the sale of patronage."

SAID HE HAS PROOF  
"I have been hearing that office were sold for what money there was in it. I have right here the proof of it," he said, and then he read the letters which he said were sold for what money there was in it. "He is the dispenser," he added, "the man who has to give his endorsement to anybody that applies, not only to my own district also, as I understand, in other States."

"I picked up a few checks," he said, "and I have right here the proof of it," he said, and then he read the letters which he said were sold for what money there was in it. "He is the dispenser," he added, "the man who has to give his endorsement to anybody that applies, not only to my own district also, as I understand, in other States."

(BY A. P. NIGHT WIRE)  
WASHINGTON, Dec. 15.—The nation's crops this year are worth \$7,572,890,000, based on their farm value as of December 1, the Department of Agriculture announced today in its final crop report of the year. Their value is \$1,842,970,000 more than last year's crops, reflecting improvement in prices for farm products and increased production in some crops. This year's farm production is worth about the same as that of 1916 but is lower than 1920 by about \$1,500,000,000 and lower than any year since 1915, except last year. It is only a trifle more than half as much as the record year of 1916.

WHEAT SITUATION  
The world wheat situation for 1922-23, as reviewed by the International Institute of Agriculture at Rome shows a world export surplus of 350,000,000 bushels and requirements of importing countries to be \$25,000,000 bushels. In announcing the statistics today the Department of Agriculture said it seemed the surplus would be quite sufficient to supply the demand and leave a good balance at the beginning of next season. World production is placed by the International Institute at 2,922,000,000 bushels, compared with 2,947,000,000 last year. The carry-over at 125,000,000, compared with 140,000,000, the exportable surplus at 350,000,000, compared with 320,000,000, and imports and import requirements at 225,000,000, compared with 230,000,000.

As of August 1 by the Institute for the principal exporting countries follows:  
Canada, 315,000,000 bushels; United States, 308,000,000; British India, 37,000,000; Argentina, 30,000,000; Australia, 18,000,000; and other countries, 39,000,000. Of the new crop in Argentina the exportable surplus is estimated at 147,000,000 and that of Australia 61,000,000.

The decrease in production of importing countries this year as compared with 1921 is estimated at 180,000,000 bushels.

During the year ending July 1, 1922, the total imports of wheat amounted to 285,000,000 bushels. Assuming the consumption of wheat this season to be equal to that of last, it would be necessary to increase their imports in proportion to the decrease in production, or from 285,000,000 to 266,000,000 bushels.

Today's final estimates showed reduction in the crop of about 5,000,000 bushels. Increases were shown for other crops including winter wheat, 4,000,000 bushels; spring wheat, 1,700,000 bushels; rice, 14,378,000 bushels; rye, 116,000 bushels; 14,378,000 bushels; 1,407,000 bushels; rice, 1,407,000 bushels; potatoes, 1,380,000 bushels; and hay, 4,055,000 tons.

As for the 1922 production statistics placed the crops of that year as follows: Corn, 2,890,712,000 bushels; winter wheat, 834,304,000 bushels; spring wheat, 370,007,000 bushels; rice, 41,868,000 bushels; potatoes, 461,185,000 bushels; and hay, 115,791,000 tons.
